OBJECTS DESIGNED TO BE LIVED WITH, KEPT AND COLLECTED.

Objects to Collect

B Edizioni is a limited-edition object collection developed by B Design Studio. Natural stone, glass and metal are shaped through measured geometries, functional details and a restrained material language.

Each piece is conceived not simply as an accessory, but as an object to be touched, used and kept - one that gathers meaning over time.

Small-batch production allows the character of every stone block, vein and surface to remain visible.
